Course 902: Property Descriptions 10 May 2019 Charlottetown, PE

Course 902: Property Descriptions

Course Description:

This course covers topographic and property information on engineering plans, the interrelationship of plan, profile and cross-section views, the horizontal and vertical alignment of a centerline, aerial photogrammetry, place coordinates, utility line crossings of highways, contours, calculating earthwork and the interpretation of right of way plans.

Prerequisites: IRWA Course 900 "Principles of Real Estate Engineering" (or equivalent), or a minimum of two years right of way engineering experience.

Course Level:

Advanced

Topics:

- Requirements of a valid description
- Use of the rectangular grid system
- When and how to use the point and centerline method
- Sources of uncertainties
- Subdivision descriptions
- Metes and bounds descriptions

Course Tuition Includes:

Participant Manual
Engineering tools (engineering scale, protractor and straight edge)

Required Materials:

Calculator
Pencil

Who Should Take This Course:

This course is designed for the new non-engineer employee, and explores topics such as engineering fundamentals, the practical applications of information contained in engineering drawings and how to interpret property descriptions.

Course Instructor:
 Murray J. LeGris, O.L.S., C.L.S is a surveyor in the Ontario Client Liaison Unit of the Surveyor General Branch, Natural Resources Canada, where he manages the addition to reserve program. This position follows 6 years as Executive Director of the Association of Ontario Land Surveyors and 31 years with Ontario Hydro. During his career Mr. LeGris has conducted surveys on electrical transmission lines and generating stations in locations varying from those accessible by helicopter in Northern Ontario to the canyons formed by high-density office towers of downtown Toronto. Mr. LeGris has supervised the titles and mapping units of Ontario Hydro, is a certified facilitator with the International Right of Way Association (IRWA), is a past Chair of the IRWA International Surveying & Engineering Committee and is a former Vice Chair of IRWA Region 8.

Cancellation Policy: All classes scheduled by IRWA are subject to cancellation. All class registrants must contact the Course Coordinator prior to making travel arrangements, keeping in mind that the class may be cancelled at any time (for reasons including, but not limited to, insufficient registration, Instructor emergencies or other issues beyond the control of the chapter and/or IRWA). Fully liquidated damages for any losses incurred by a class registrant are limited solely to a refund of the registrant's prepaid class tuition. IRWA and its chapters assume no other registrant liability resulting from class cancellation.

Tuition Refund Policy: Written notification of intent to cancel registration must be received via email by both the Course Coordinator and IRWA Headquarters Education Staff (education@irwaonline.org) prior to the class start date in order to be eligible for a tuition refund. A full tuition refund will be issued if notice is received 15 days or more prior to the class start date; a 75% refund will be issued if notice is received less than 15 days prior to the class start date, and no refund will be issued for notice received on or after the class start date.
